

Castellón, land of festivals

Main stage of the Arenal Sound festival in Borriana.

Castellón hosts some of the most important music festivals held in Europe.

FIB (Benicàssim International Festival), Arenal Sound in Borriana and Rototom Sunsplash in Benicàssim festivals are leading examples in the European scene and every summer gather thousands of people from all over the world, attracted by an unbeatable combination—the exceptional quality of the line-up and the tourism offer in the region.

"Castellón brings together a wide range of festivals that constitute one of the main attractions of the province, especially in spring and summer".

Coming to one of these festivals is the perfect opportunity to get to know the diversity of the territory, which combines the beauty of the coast with an interior that treasures a unique natural and historic heritage.

Besides, Castellón is a destination not only for sightseeing, but also for activities. The hundreds of cycling, mountain biking or hiking routes to discover the territory, or the best gastronomic offer grouped under the quality certification “Castelló Ruta de Sabor”, are some of the experiences that can be experienced as a complement to the festival days.

The FIB, or Benicàssim International Festival, is one of the main musical events every year in Spain

The Templar Castle of Peñíscola, the Arenal beach in Borriana or the modern festival venue of Benicàssim, are some of the scenarios that host these musical events that take place in varied and unique environments throughout our territory.

All musical styles are represented—jazz, blues, classical, rock, indie, electronic or habaneras—making up a diverse calendar for all tastes.

Rototom Sunsplash is a reggae, dub, ska, and dancehall festival held in August in Benicàssim
